Miguel Faraj

SENIOR DIGITAL ENGINEER

Beirut, Lebanon | +961 70 234 138 | miguelfaraj@outlook.com

Objective

Solution-oriented software developer and industrial automation specialist with extensive experience in software development, SCADA, data analytics, robotics, and digitalization of industrial environments. Skilled in transforming complex operational challenges into secure, scalable, and efficient technology solutions, with hands-on experience across industrial equipment, factories, and production plants. Passionate about emerging technologies, continuous innovation, and leveraging software and data to drive operational excellence, automation, and digital transformation.

Experience

Technica International | Senior Digital Engineer **Apr 2026 - Present**

- Lead industrial digitalization projects across SCADA, IIoT, software, and analytics.
- Architect scalable digital solutions for factories and production environments.
- Drive R&D initiatives and develop innovative industrial software solutions.
- Provide technical leadership from solution design through implementation and commissioning.

Technica International | Digital Sales Engineer **Jan 2026 - Present**

- Identified digitalization opportunities across industrial customers and applications.
- Developed technical solutions, architectures, proposals, and commercial offers.
- Presented SCADA, IIoT, automation, and digitalization solutions to customers.
- Collaborated with engineering teams to convert opportunities into projects.

Technica International | Digital Engineer **May 2024 – Apr 2026**

- Designed and implemented digitalization solutions for industrial environments.
- Developed dashboards and applications for production and equipment monitoring.
- Integrated SCADA, IIoT, databases, APIs, and industrial communication protocols.
- Managed digital projects from technical design through commissioning.

Technica International | Digital R&D SCADA Engineer **Jul 2023 – May 2024**

- Developed SCADA and digital solutions for industrial applications.
- Built industrial data acquisition, visualization, and database solutions.
- Researched and evaluated emerging technologies through R&D projects and POCs.
- Integrated digital solutions with PLCs, equipment, and existing control systems.

Automate by AIREDS Group | SCADA Engineer **Dec 2021 – Jul 2023**

- Developed and commissioned SCADA and HMI systems for industrial applications.
- Integrated PLCs, industrial protocols, and equipment for real-time data acquisition.
- Configured alarms, trends, dashboards, and operator interfaces.
- Troubleshot automation, communication, and SCADA-related issues on-site.

Education

Arts, Sciences and Technology University. BS Computer Science **2023**

Major: Computer Science

Dhour Shweir Public Secondary School **2018**

LEBANESE OFFICIAL BACCALAUREATE II: Life Science

Certificates

Inductive Automation

Gold Certified Integrator

Technical Skills

Core Expertise: Industrial Digitalization, SCADA, Software Development, IIoT, Data Analytics, Automation, Robotics, System Integration, Smart Factory

- **Software Development:** Python, C#, Java, JavaScript, HTML, CSS, SQL, REST APIs
- **Industrial Automation:** SCADA, HMI, PLCs, OPC UA, Industrial Communication Protocols, Automation Systems
- **Digitalization & IIoT:** Industrial IoT, Smart Factory, Digital Transformation, Data Acquisition, System Integration
- **Data & Analytics:** MySQL, Data Analytics, Data Visualization, Power BI, Industrial Historians
- **Platforms & Technologies:** Inductive Automation Ignition, Siemens, AWS, Git/GitHub, Microsoft Technologies
- **Engineering & Integration:** System Architecture, Software Integration, Commissioning, Troubleshooting, Technical Documentation
- **Professional:** Solution Design, Problem Solving, R&D, Technical Sales, Customer Engagement, Project Coordination

Soft Skills

- Communication
- Teamwork
- Flexibility
- Confidence
- Problem-Solving
- Self-Management
